### BACKEND DEVELOPMENT

Node.JS • Express.JS • SQL  
C • Java • Python • Deployment  
RESTful APIs • API integration  
Authentication • Authorization

### OTHER

Git • npm • Agile/Scrum  
Problem Solving • Debugging • Testing  
AWS • Azure • MVC

## COURSES

### THE COMPLETE REACT NATIVE + HOOKS COURSE

Udemy-2022

### INTRODUCTION TO HTML5

University of Michigan-2021

### SQL

HackerRank-2023

## EXPERIENCE

Total Experience - 1.4 Years

### HARMAN CONNECTED SERVICES | ASSOCIATE ENGINEER-PRODUCT DEVELOPMENT

March 2022 - Dec 2022 | Bangalore, India

- Contributed to the product development lifecycle, collaborating with cross-functional teams to gather requirements, conduct feasibility studies, and design innovative solutions, resulting in the successful launch of multiple products within strict deadlines.
- Utilized programming languages such as JavaScript and Node.JS to develop and implement scalable software solutions, enhancing product functionality and performance.
- Conducted thorough testing and debugging of software modules, identifying and resolving issues to ensure high-quality deliverables and customer satisfaction.
- Actively participated in code reviews and provided constructive feedback to peers, fostering a culture of continuous improvement and adherence to coding best practices within the development team.

## PROJECTS

### REMA | FULL STACK BASED PROJECT- WEB DEVELOPMENT

Jan 2023 – Present

- Designed and developed visually appealing web pages for a supermarket's product display, incorporating intuitive navigation and attractive UI elements to enhance the user experience.
- Utilized front-end technologies such as HTML, CSS, and JavaScript to create dynamic and interactive product pages, enabling customers to easily browse and search for desired items, resulting in increased engagement and sales.

### MPOS | REACT NATIVE PROJECT- MOBILE APPLICATION DEVELOPMENT

March 2022 – Dec 2022

- Developed a mobile point-of-sale (mPOS) application using React Native, enabling secure and efficient transactions for customers, resulting in improved sales and customer satisfaction.
- Integrated third-party payment gateways and implemented secure payment processing functionalities within the mPOS application, ensuring compliance with industry standards and maintaining data privacy.
